Vision For Futuristic Technology

ABOUT US

Conceptualized in the year 2011 by Mr J. S. Rathore. Vision world tech Pvt. Ltd.. is an ISO 9001.2008 certified company started with an aim to contribute to the branch of proficiency and to provide the best technocrats to industries, we have taken the initiative to provide a practical industrial learning experience to our budding engineers.

After year's of success in the education world, we have started a new sector to serve industries in the field of Industrial Automation, Robotics, solar and many more in the year 2013. We provide 24*7 services maintenance and instrumentation solutions to the industries.

Apart from the industrial contribution we have invented technology based on controlling and Monitoring pollutions. Currently working with various govt. Organisations and have installed more than 1000+ devices across Rajasthan for controlling and monitoring water and air pollution.

PLC & SCADA PROGRAMMING

PLC & SCADA programming solutions by our world-class Engineers. We provide the best possible optimized solutions for PLC programming and SCADA Designing

VFD AND MOTOR INSTALLATION

One-stop solutions for all VFD and Motor (Servo Motor, Stepper Motor, 3 Phase Motor, etc). Programming and Synchronizing all types of Drives.

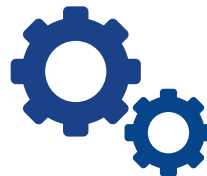

INDUSTRIAL PANEL DESIGN

Providing all types of Industrial Panel (Electrical Panels, PLC Panels, Drive and Motor Panels etc). We have a separate division for designing.

DRIVE & PLC REPAIR SOLUTIONS

Drives are becoming a common need in the Industrial Sector. So the increase in requirement leads to a need for Repairing and Testing the Drive Systems.

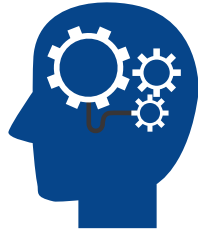

MACHINE AUTOMATION

Machine Automation solutions for all kinds of Machinery. We also provide consultancy for designing these eloquent hardware systems.

INSTRUMENTATION SOLUTIONS

Field Instrument – Flow Meter, pH, TSS, BOD, COD, Pressure, Temperature sensor Installation & Calibration services, We also provide online data monitoring & reporting for all field instrument.

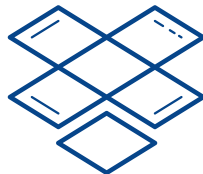

HOME AUTOMATION SOLUTIONS

Home Automation is becoming the key need for getting a well-maintained and equipped home will all the amenities. So We provide Sensor Systems for Home Automation.

IOT SOLUTIONS

We provide Industrial Based IOT solutions. With advance IOT application we design Hardware and Softwares for IOT Applications at Jaipur Rajasthan.

Software Designing

We provide solutions for customized software. Our solution comprises providing software based on Inventory Management, School Management, CMS-based Systems, and many more
