WOLTMAN TYPE WATER METER

VIFLOW-WM-013

ABOUT THE PRODUCT

Our Woltman Type Water Meter is engineered for accurate and reliable measurement of high-volume water flow in industrial and municipal applications. Designed with robust construction and advanced turbine technology, it ensures long-term performance with minimal maintenance. Ideal for bulk water supply systems, it delivers precision, durability, and efficiency, making it a trusted solution for monitoring and managing large-scale water distribution networks effectively.

PRODUCT DESCRIPTION

A Woltman Type Water Meter is designed for high-capacity water flow measurement with exceptional accuracy and durability. Ideal for industrial and municipal applications, it features a turbine mechanism that ensures minimal pressure loss and reliable performance. Built with robust materials, it handles large volumes efficiently while maintaining long-term stability. Its easy maintenance design and precise reading capability make it a dependable solution for bulk water monitoring systems.

APPLICATION'S

Cement Industries

waste water treatment plant

Chemical and petrochemical industries

Pharmaceutical Industry

HVAC and energy management systems

Food & Beverage Industry

5000+ Installation of Flow-meters, Data-loggers, RTU, Analyzers & Many More.

TECHNICAL SPECIFICATION

Model
VIFLOW-WM-013

Accuracy	±2% of F.S.
Display	Analog
Usage/Application	Industrial
Range	DN40 to DN400
Material	Stainless Steel
Output Signal	RS485
Power Source	24V DC
Reading Unit	m ³
Lining	PTFE/Plastic
Protection class	IP68
Internal Parts	Stainless Steel & Brass

FEATURES

Front Meter View

3D Product View

Pipe Connection Interface

Flow Reading Dial

Product Specification Plate

Meter Body Marking

Outlet Connection View
